AZALEA & CAMELLIA ADVANCE PRICE LIST 1951 - 1952

Catalog will follow

CAMELLIA LINERS

Don't overlook these wonderful plants in your planting for next season. Come see them and you will agree that we have the finest crop of camellia liners you have ever seen. The following steps were taken to assure you of getting heavy rooted, vigorous, disease free stock.

1. Planted in well drained new soil.
 2. Generous application of peat to provide aeration.
 3. Beds were raised six inches to further insure proper drainage.
 4. Fumigated beds with double dose of MC-2 as further insurance against soil borne diseases, insects, and weed seed.
 5. Plants were spaced so as to give ample growing room.
 6. Spray schedule was strictly followed to eliminate scales and other insects.
 7. Fertilized lightly with a balanced complete fertilizer.
- We feel sure the above practices have been responsible for the excellent camellia liners we have to offer this season.
